SKILLS

Javascript, Python, HTML5/CSS, React/Redux, NodeJS, SQL, Postgres, Express, MongoDB, Adobe Photoshop, Glt, Github, Typescript, Java, Angular, NextJS, React Native, AWS

PROJECTS

Citi Composition Tool (Maker-Checker)

A tool used by business/banking associates to share documents amongst peers, managers, and clients with strict permission control and audit functionalities.

- Tech: React/Redux, TypeScript, Java
- Role: Frontend developer, Team lead

Clit Lingo([GitHub](#))

A real time chat app where users can select their native language and target language to translate messages using AWS Translate. Built as part of Hackathon with idea of bridging language gap for non-English speaking clients

- Tech: React, CSS, Socket.IO, AWS
- Role: Project member, Owner of the base project

BottomLine ([GitHub](#))

A mock stock trading app where users can purchase stocks based on most up-to-date prices, view portfolios, and also view all transactions for audit purposes. Users can also set an initial investment amount upon signing up.

- Tech: React, Adobe Photoshop, Express, CSS, NodeJS, Material-UI, Chart-JS
- Role: Solo project (Front-end, Back-end, and Logo Design)
